Built to last with SMART Construction

SMART Construction combines advanced composite materials with proven engineering to create a highly insulated, exceptionally durable bodyshell, built for year-round exploration.

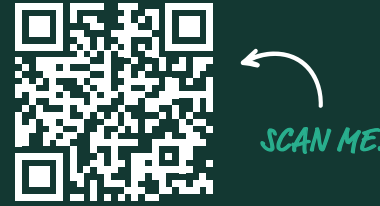

- Strong: Timberless 'PURE' construction that's impervious to water for lasting strength and durability.
- Modern: Built using advanced materials and precision engineering.
- Aerodynamic: Computational Fluid Dynamics helps optimise the bodyshell for better fuel consumption.
- Resilient: Side outer and inner GRP skins provide greater impact resistance than aluminium and can be easily repaired.
- Tested: Tested on proving tracks to replicate real-world road conditions and in cold chambers down to -15°C to ensure year-round comfort.

6 YEAR MANUFACTURER BODYSHELL WARRANTY

Designed, engineered and made in Britain. For more than 60 years, we've combined innovation, craftsmanship and quality to create leisure vehicles built by people with a passion for touring and travel, and a commitment to continual improvement.
