SWIFT SUPERIOR STANDARD

There's no better feeling than stepping into your holiday lodge for a relaxing getaway, so we do everything possible to make that feeling last for years to come.

We pride ourselves on applying superior manufacturing quality to everything we produce, giving you the confidence that your investment is protected and built to last. With the comfort of total assurance in your purchase, you can get on with the important things in life – making smiles and enjoying unforgettable getaways.

And prioritising your peace of mind, we offer outstanding warranties, including a 3-year Manufacturer Supersure Warranty, 5-year Structural Warranty and 10-year Chassis Warranty.

EXCLUSIVE DUVALAY™ MATTRESSES

All beds feature indulgent Duvalay™ mattresses for the best nights' sleep possible

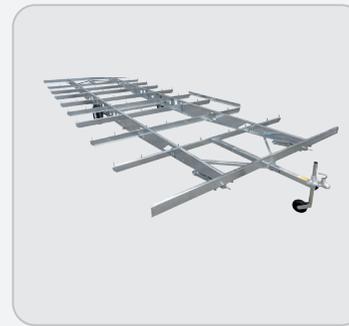

STAIN RESISTANT CARPETS

With stain resistant carpets, there's no need to waste your precious holiday time scrubbing

BONDED EXTERIOR WALLS

'Sandwich' construction walls provide a more rigid exterior, bonded with insulation in the middle

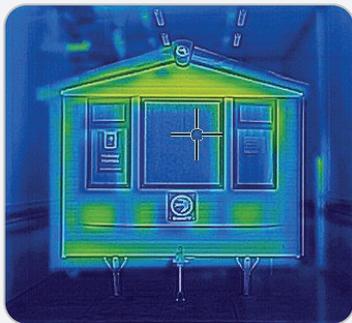

FULLY GALVANISED CHASSIS

Protecting your lodge, Swift's robust, fully galvanised fusion or I Beam chassis resist corrosion

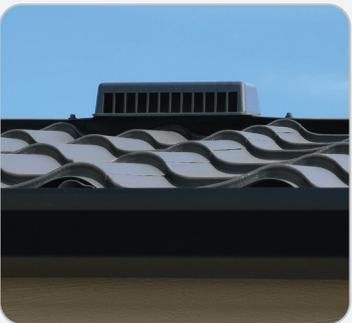

ELECTRICAL AND USB SOCKETS

Stay connected with electrical and USB sockets in selected areas keeping everything charged

CHAMBER TESTING

Enjoy outstanding thermal efficiency, proven by thorough environmental chamber testing

EXTERNALLY VENTED EXTRACTORS

Keep your lodge fresh and dry with externally vented extractors, preventing damp and odours

INTEGRATED MICROWAVES

Optimising valuable work surface space, all Swift lodges feature integrated microwaves

INTEGRATED FRIDGE FREEZERS

Integrated fridge freezers are included across all ranges to maintain a sleek, uncluttered look

LED CEILING LIGHTS

Benefiting the environment and your pocket, bright, low energy LED lighting is included throughout

The flagship twin unit Whistler Lodge enables exceptionally spacious living inspired by boutique hotel style. At 20ft wide, the generous living space has an open-plan kitchen, dining and living area, plus two bedrooms and a utility room, all enhanced by Swift's incomparable styling.

THE SWIFT DIFFERENCE

As a leading manufacturer of holiday homes, touring caravans and motorhomes, we know just how to create the perfect retreat for your getaways. We apply this design and innovation excellence to all of our products, taking the time to understand what makes your breaks special and incorporating this in superb specifications, impeccable looks and creative space solutions.

Our years of experience have made the 2021 collection more diverse and impressive than ever, offering a huge choice of state of the art lodges for all tastes, requirements and budgets. With stylish new interior schemes and additional layouts, each model raises the bar for leisure living.

Swift's renowned engineering and construction quality means every lodge is built to last, and is set apart by key features like our strong, unique bonded 'sandwich' exterior walls, warrantied Fusion chassis and class-leading thermal performance. This is all wrapped up in one of the most stylish, thermally efficient and robust body structures on the market, and because we work with some of the industry's most trusted suppliers, you can be assured that everything is of the highest standard both inside and out.

CONSTRUCTION AND THERMAL EFFICIENCY

Swift's design team is widely recognised as one of the most innovative and creative in the industry, and we are constantly investigating new and better ways to develop our products. We have made significant construction and thermal efficiency improvements over the years, and continue to offer many unique build and engineering methods that set our lodges apart.

Swift's lodge range is covered by the NCC Energy Efficiency Rating Scheme for Residential Park Homes built to BS 3632, an indication of the home's likely energy consumption and carbon dioxide emissions. Our lodges are built to the BS 3632:2015 specification, which sets higher standards for thermal efficiency; through improvements in roof, wall and floor insulation, Swift surpasses this standard. This also offers better sound insulation.

The NCC rating scheme for Residential Park Homes takes into consideration the insulation qualities of the lodge's fabric, the amount of energy required to heat the air passing through the lodge, the energy efficiency of the central and water heating, and the energy consumed by the fixed lighting equipment. The rating assumes that the units will be used for twelve months of the year*, and those with a rating in the green end of the scale are the most efficient. Lodges with features like double glazing and gas central heating and those with lower occupancy are likely to have a higher rating.

*PLEASE NOTE

Duration of occupancy is dependent on whether the park where the lodge is sited is licensed for permanent residential use or holiday use only.

DOUBLE GLAZING

In response to the demand for more energy conscious living, all lodges are fitted with heat reflecting 'Thermaglas' double glazing with a 16mm air space as standard.

CHASSIS

Every Swift lodge comes with a 10-year anti-corrosion warranty. Swift is the only manufacturer specifying the Bankside Patterson I Beam, or Fusion galvanised chassis as standard on all its 2021 lodge models. It has been created using the very latest design and technology to provide stability over the life of your home, not only protecting your investment but also offering peace of mind for years to come.

ROOF TRUSSES

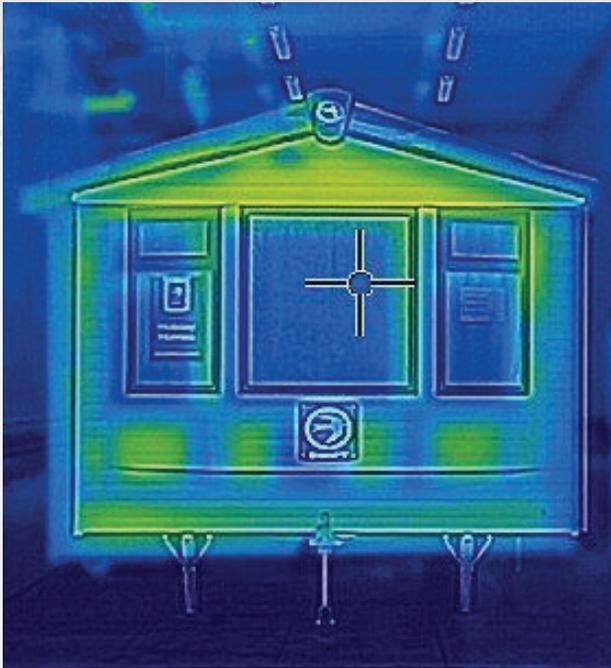

For accuracy, strength and reliability, all Swift lodges use prefabricated roof trusses.

Hydraulic presses are used to press nail plates into the truss timbers to create the finished truss. The resulting roof strength is independently tested and meets Grade B snow loading (capable of carrying half a metre of settled snow), suitable for use in the UK and most of Europe, excluding Scandinavia and the Alps.

Once erected and secured in place, a minimum of 90mm glass wool insulation provides excellent thermal efficiency, followed by a breathable membrane and Thomas Panels plastisol tile effect roof sheets.

ENVIRONMENTAL CHAMBER TEST

Swift tests its lodges in an environmental chamber to optimise the heating and ventilation levels and measure thermal performance. Thermal imaging helps to ensure the products are fully designed and engineered to meet the requirements of a modern lodge.

WALL CONSTRUCTION

All Swift lodges benefit from bonded 'sandwich' exterior wall construction for greater structural strength.

The walls are made in modules approximately 3m long and 2m high, which are securely fixed together during the lodge's final assembly before being clad with aluminium or CanExel. Each model consists of a robust timber frame, battened out and filled with an insulating layer of equal thickness. This is precision cut with water jets to eliminate air gaps or voids. On the outer surface is a breathable moisture membrane, and on the inner is a skin of plywood covered with a decorative wall covering.

These components are bonded together in the well-proven production unit, used to make similar panels for touring caravans and motorhomes. The panels act as structural members to help keep the whole home more rigid, as well as being straighter and resisting sideways deflection.

FLOOR CONSTRUCTION

In lodge models, the thermal efficiency is enhanced with Structural Insulated Panel (SIPs) flooring, consisting of a timber frame with floorboards either side which is injected with polyurethane. This gives a greater level of insulation for all year-round living.

SAFETY COMES FIRST

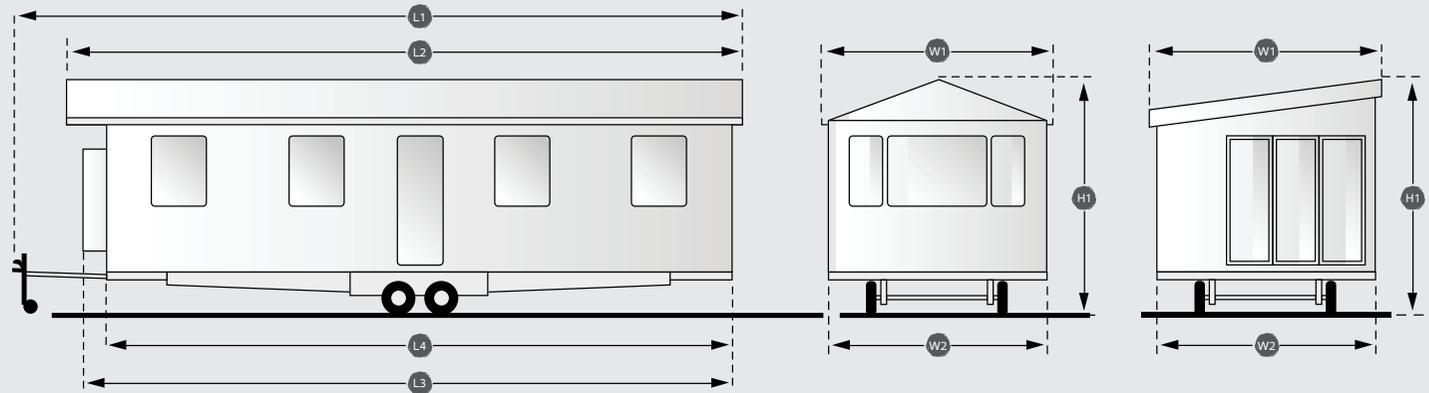

Your safety is paramount, and you can be assured that Swift takes this seriously. All our holiday homes and lodges are built in accordance with British and European standards EN1647 and EN1949 and are certified by the National Caravan Council (NCC).

Lodges are built to full residential specification BS 3632:2015. Standard safety equipment includes a smoke alarm with a 10-year battery, carbon monoxide detectors in dining areas and hallways with a 5-year battery, and a fire extinguisher. Showers are fitted with thermostatic mixer valves to ensure a constant temperature.

DIMENSIONS

- L1** Overall length including detachable towbar
- L2** Overall length excluding detachable towbar
- L3** Body length (including bay where applicable)
- L4** Body length at floor level
- W1** Overall width including gutters and down pipes
- W2** Width at floor level
- H1** Overall height

SWIFT WARRANTY SCHEME

You can rest assured that your Swift holiday lodge comes with a comprehensive warranty, allowing you to simply relax and enjoy your home.

3-YEAR SUPERSURE WARRANTY

Your holiday lodge has 3-year cover for all parts and fittings (other than the structural exterior).

This includes items like:

- Freestanding furniture
- Kitchens
- Showers
- Sanitaryware
- Sockets and switches
- Interior doors and integrated furniture
- Gutter and fall pipes

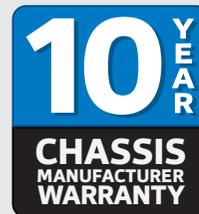

5-YEAR STRUCTURAL WARRANTY

Your holiday lodge has a 5-year Structural Warranty and Swift will repair (or, at its option, replace) any defects with the structural integrity of the home that come to light and are notified to Swift during the warranty period.

The Structural Warranty covers any defect with the seams of the lodge, including water ingress through any permanently sealed seam joints and also items like:

- External doors
- uPVC windows
- Roof, walls and ceilings
- Carpets

10-YEAR CHASSIS WARRANTY

Your holiday lodge has a fully galvanised chassis with a 10-year Chassis Warranty, subject to maintenance. Swift will repair (or, at its option, replace) any defects with the chassis that come to light during this period, but only for as long as the home belongs to its first owner.

All warranties start from the date an approved Swift Group dealer or park operator transfers the unit to its first owner and are subject to conditions, terms and exclusions. For full details see www.swiftgroup.co.uk/owners/handbooks.

*Other than the structural exterior. **Only for as long as the unit belongs to its first owner

EXTERIOR FINISHES & SOFT FURNISHINGS

Swift lodges are designed for long-lasting great looks, both inside and out. The exterior is clad in CanExel high density wood composite cladding with durable, realistic woodgrain texture for a superb finish, while a range of natural colour treatments add extra character.

SWIFTSHIELD

Selected Swift holiday lodges are available with the exclusive option of SwiftShield fabric. SwiftShield fabric has a soft suede-type feel and has been cleverly treated during manufacturing to resist stains. It is very easy to clean and requires only a soft cloth dampened with water to remove most stains.

For full details, please go to www.swiftgroup.co.uk
